Current Incident Details

Incidents not Previously-Reported: 0

Incidents Previously-Reported: 4

Buckskin OR-RSF-000382. IMT2. 10 miles SW of Cave Junction OR. St 6/11. **Full Suppression.** Timber. Cause Lightning. IMT2 OR Team 3 (Johnson). Snags, steep terrain and limited access. Active backing fire behavior. 3,300 acres (+700). 15% containment. Continuing burnout operations. Area closures in effect.

Little Basin OR-WWF-000269. ICT3. 10 miles N of Imnaha, OR. St 6/15. **Full Suppression.** Grass. Cause unknown. 630 acres (+0). 90% containment. Minimal fire behavior. Remote area, rugged terrain. No update received.

Paradise WA-OLP-000005 ICT3. 33 mi SE of Forks, WA. St 6/15. **Monitor/Confine.** Timber. 381 acres (+0). 5% containment. Cause lightning. Minimal fire behavior. Confinement strategy with minimal operational resources required at this time. No update received.

Fish Lake WA-NES-000458. IMT3. 5 miles NE of Cheney WA. St 6/17. **Full Suppression.** Timber. Cause unknown. Creeping and smoldering. 146 acres (+0). 100% containment. Forecasted gusty winds. The fire is lined and no further growth is expected. **Final report unless conditions change.**

Northwest Weather Highlights / Fire Potential:

Large fire potential has dropped back to typical levels as winds have dropped in the Columbia Basin and along the east slopes of the Cascades. On Sunday a few lightning starts are possible in Northeast Oregon (PSA NW11) but new fire starts are anticipated to be numerous enough to strain initial attack capability.
